Contact of Envelope Companies

1. Efforts are being made to develop a better chain envelope than the one that is presently in the system. We are striving to develop an envelope that is re-usable and one that would discourage the unauthorized opening while in transit.

2. We would like to have you contact the companies listed below to ascertain if they have any representatives coming into the territory in the near future, who could meet with us and discuss <sup>over</sup> the problem. If you draw a blank from them as to a visit, see if your people can obtain any literature or pamphlets from the companies on the special types of envelopes they manufacture.

- (a) American Envelope Co.  
3108 W. Grand Ave., Chicago, Ill.
- (b) Heco Envelope Co.  
4498 Courtland St., Chicago, Ill.
- (c) United States Envelope Co.  
Springfield 2, Mass.
- (d) Continental Can Co.  
449 Main St., Kensington, Conn.
- (e) Pavey Envelope and Tag Corp.  
23 Centre St., Newark, N. J. (Market 3-0100)
- (f) Union Envelope Co.  
Sherman Ave., and Hermitage Rd., Richmond, Va.

3. This is an overt operation and Security imposes no objection to these contacts. They can call me direct on Extension [ ] or address their replies to Central Intelligence Agency, 2430 E. St., Washington 25, D. C. Your prompt assistance on this project will be greatly appreciated.
